

Smart Attendance & Timetable Intelligence Guide

Official student onboarding guide for one-time attendance setup, daily routine logging, and predictive recovery roadmaps.

100% Timetable Precision: Don't worry about calculation errors! All percentages, safety buffers, and roadmaps sync automatically with your section timetable, academic calendar, and university holidays.

01

🔍 Accessing GradeFlow (Web & Google Search)

GradeFlow runs smoothly inside your web browser. No app install or heavy download is needed.

MOBILE VIEW

Open on Smartphone

- Open Chrome, Safari, or any phone browser.
- Search **grade-flow-vercel** in Google.
- Tap the top verified result: **GradeFlow | Academic analytics and GPA planning**.
- Or directly type: **<https://grade-flow-six.vercel.app/>**

LAPTOP / PC VIEW

Open on Desktop

- Open Chrome, Edge, or Brave on your PC or laptop.
- Search **grade-flow-vercel** in Google or paste the direct link.
- Click on **GradeFlow | Academic analytics and GPA planning**.
- Bookmark the tab (**Ctrl + D**) for fast daily attendance access.

02 Signing In with Your University Registration Number

Your academic branch, section timetable, and saved attendance are securely linked to your official 12–digit university registration number.

MOBILE VIEW

Mobile Login Steps

- Tap on **Student Login** (or enter your Reg No in the home search bar).
- Type your 12–digit university registration number (e.g. **230301120327**).
- Tap **Continue** to open your student dashboard.

LAPTOP / PC VIEW

Laptop / Desktop Login Steps

- Click **Student Login** on the top bar or home hero section.
- Type your 12–digit registration number into the Student Portal Login dialog.
- Click **Continue**. Your branch and section routine load automatically.

03 Navigating to Attendance Tracker

Open the Attendance Intelligence workspace to view today's timetable, current percentages, and predictive tools.

MOBILE VIEW

Mobile Navigation

- Tap the **Menu icon (≡)** at the top right of your phone screen.
- Tap on **% Attendance Tracker** (highlighted with the green dot).
- Your section routine and today's attendance cards load immediately.

LAPTOP / PC VIEW

Desktop Navigation

- In the top horizontal navigation bar, click directly on **Attendance**.
- Your section is highlighted automatically in the left sidebar and header badge.
- You will see your attendance percentage, timetable, and predictor modules.

04 📷 One-Time Attendance Setup (Unlocks Full Suite)

⚡ **One-Time Setup (Save to Cloud):** You only need to import your attendance once! After confirming and saving to cloud, you never have to upload screenshots again.

Taking Screenshot Mid-Day? If your ERP portal attendance was updated up to earlier classes and you still have classes left today, open **Daily Attendance** and mark **Present** or **Absent** for today's remaining classes. If all classes for today are already finished and included in the screenshot, simply start marking from **Tomorrow / Next Day**!

RECOMMENDED: AI AUTO-IMPORT

Method A: Screenshot Auto-Import

- 1. **Take Long Screenshot:** Open your college ERP portal and capture a full screenshot of your subject-wise attendance table.
- 2. **Upload to GradeFlow:** Click **Auto-Import Screenshot** (camera button) and upload or drop the image.
- 3. **Verify All Subjects:** Carefully review each subject row. Verify attended and total classes match your ERP portal (edit any number if needed).
- 4. **Confirm & Save:** Click **Confirm & Apply to Tracker**. Your data is saved to the cloud and all 7 modules unlock!

ALTERNATIVE: MANUAL SETUP

Method B: Manual Entry via Edit & What-If

- 1. **Open Edit & What-If:** Click the **Edit & What-If** tab in the left sidebar menu.
- 2. **Select Subjects:** Choose each subject from your semester routine catalog.
- 3. **Enter Numbers:** Type your current **Attended Classes** and **Delivered Classes** for Theory and Lab.
- 4. **Save to Cloud:** Click **Save & Sync Attendance**. Your baseline data is securely stored in MongoDB.

05 Daily Attendance Routine Logging (Day 2 Onwards)

After your initial setup is complete, keep your attendance 100% accurate every day with just 10 seconds of effortless routine logging.

MOBILE VIEW

How to Give Daily Attendance on Phone

- 1. Open Daily Attendance:** Tap the top module pill bar to select **Daily Attendance**.
- 2. View Today's Routine:** Today's classes appear automatically based on your section timetable.
- 3. Mark Present or Absent:** Tap **Present (Green)** or **Absent (Red)** on each period card as your classes finish.
- 4. Instant Live Update:** Your overall percentage and safe bunk margins update immediately!

LAPTOP VIEW

How to Give Daily Attendance on Laptop

- 1. Open Daily Attendance:** Click **Daily Attendance** in the left sidebar menu.
- 2. View Scheduled Routine:** Check period timings, subject codes, faculty names, and room numbers.
- 3. Mark Each Class:** Click **Present** or **Absent** on each period card.
- 4. Real-Time Cloud Sync:** All subject metrics and predictive recovery roadmaps update instantly.

2. Subject-wise Attendance (Academic Matrix)

ACADEMIC MATRIX

Displays your complete subject breakdown with color-coded safety badges: Safe (Green $\geq 75\%$), Borderline (Yellow 70–75%), and Critical (Red $< 70\%$).

Theory vs Lab Split:

View separate attended and conducted counts for lectures and practical labs.

Bunk Margin & Deficit:

Tells you exactly how many classes you can skip, or how many you must attend.
